Riesenia, spol. s.r.o.

Bratislava, Slovakia

Re: Application for IAESTE Internship – Offer **SK-2026-BA-03**

Dear Hiring Team,

My name is Daniel Felipe Vargas Rodriguez, a Systems Engineering student at Universidad de Ibagué, Colombia, currently in my fourth year with a GPA of 4.22/5.0. I am applying for the web development internship at Riesenia through IAESTE, and I want to be honest from the start: this opportunity excites me for reasons that go well beyond the technical role.

During my academic exchange at Montanuniversität Leoben in Austria, I had the chance to visit Bratislava. Walking through the Old Town, crossing the Danube, and standing in front of Bratislava Castle left me with a feeling I did not expect — I wanted to come back and experience the city properly, not just as a weekend visitor. Slovakia has a charm that is hard to explain: it is warm, compact, full of history, and yet very much alive. I left with the clear sense that there was much more to discover, and this internship would give me exactly that chance.

I am particularly excited about exploring the local food and social scene more deeply. I did not get to try bryndové halušky or sit at a café in the Old Town with a glass of local wine, and those are things I genuinely look forward to. Living and working in Bratislava would allow me to go beyond what a tourist sees and truly connect with the culture, the people, and the everyday life of the city.

On the professional side, I bring solid experience in web development. I am proficient in Python and JavaScript, have built full-stack applications using React, PostgreSQL and REST APIs, and I currently lead a six-person team developing REVEAL, a social mobile application deployed entirely with free-tier technologies. I am familiar with Git, Docker, and cloud platforms, and I am eager to expand into PHP or Ruby as your team requires.

My time in Austria as an exchange student taught me that immersing yourself in a different academic and cultural environment pushes you to grow faster than anything else. I am ready for that again. I would be genuinely proud to contribute to Riesenia's work while making Bratislava my home for a few months.

Thank you for considering my application. I look forward to hearing from you.

Yours sincerely,

Daniel Felipe Vargas Rodriguez
